Natalie Portman

Hot hair trend | DOWNWARD SPIRAL

The tendrils have a brand-new twist. Unlike the tight ringlets associated with bridesmaids and pageant beauties, this loose, sideswept curl is anything but kitschy. "It's soft and modern," says Nexxus creative director, Kevin Mancuso, who created Natalie Portman's look. "There's nothing overly structured about it." To achieve this, secure hair into a sleek chignon, then wrap a section in front around a curling iron to create a gentle wave. "The key is to section out the right amount of hair [about a 4cm width]," says Mancuso. "Too little looks wiry; too much looks heavy."
